POWER METERS

THE MAGIC OF METERING

EGM-PWM

Power meter with USB interface

- → USB Power Meter, creates insight into your energy consumption (voltage/current/power)
- → No permanent computer connection required
- → Stores 24h of energy consumption data in the internal memory
- → Power Meter software helps calculating the actual energy costs of your equipment
- → Software provides basic power consumption readings (home use) and advanced readings (business/scientific use)

EGM-PWM-LAN

Power meter with LAN interface

- → LAN Power Meter, accessible from anywhere within your LAN, creates insight into your energy consumption (voltage/current/power)
- → Get your power consumption curves via Internet – no permanent computer connection required
- → No external IP-address at home? No problem. Your own free personal user account on EnerGenie.com will let you view and analyze your energy costs via Internet with any PC or even smartphone
- → Power Meter software provides basic power consumption readings (home use) and advanced readings (business/scientific use)

EGM-PWM-WLAN

Power meter with WLAN interface

- → WLAN Power Meter, accessible from anywhere within your WLAN, creates insight into your energy consumption (voltage/current/power)
- → Get your power consumption curves via Internet – no permanent computer connection required
- → No external IP-address at home? No problem. Your own free personal user account on EnerGenie.com will let you view and analyze your energy costs via Internet with any PC or even smartphone
- → Power Meter software provides basic power consumption readings (home use) and advanced readings (business/scientific use)

POWER MANAGERS

YOUR SWITCH IS MY COMMAND

EG-PMS

Programmable surge protector

- → EnerGenie programmable surge protector with USB interface is an advanced surge protector with power management features. It is possible to individually switch 4 sockets on or off manually via your computer, by timer schedule, or by programmable special events (eg: switch on my scanner whenever I start Photoshop, or have my printer switched on only when I really print)
- → Program four sockets individually via your PC or laptop
- → An advanced standby-killer for computer peripherals
- → Perfect solution for security systems, electric heating, sauna, aquariums, pet habitats

EG-PMS-LAN

Programmable surge protector with LAN interface

- → EnerGenie programmable surge protector with LAN interface is an advanced surge protector with power management features. It is possible to individually switch 4 sockets on or off manually via your local network or Internet, by timer schedule, or by programmable special events (eg: switch on my scanner whenever I start Photoshop, or have my printer switched on only when I really print). With your free personal user account on EnerGenie.com you can manage your EG-PMS-LAN via Internet from all over the world, even with your smartphone
- → Program four sockets individually via LAN or Internet
- → Switch electric devices on or off with your smartphone, wherever you are
- → Perfect solution for security systems, electric heating, sauna, aquariums, pet habitats

EG-PMS-WLAN

Programmable surge protector with WLAN interface

- → EnerGenie programmable surge protector with WLAN interface is an advanced surge protector with power management features. It is possible to individually switch 4 sockets on or off manually via your local network or Internet, by timer schedule, or by programmable special events (eg: switch on my scanner whenever I start Photoshop, or have my printer switched on only when I really print). With your free personal user account on EnerGenie.com you can manage your EG-PMS-WLAN via Internet from all over the world, even with your smartphone
- → Program four sockets individually via WLAN or Internet
- → Switch electric devices on or off with your smartphone, wherever you are
- → Perfect solution for security systems , electric heating, sauna , aquariums, pet habitats

SURGE PROTECTORS

THE ULTIMATE PROTECTION

SPG5-C-XX

Surge protector

- → 5 x German (Schuko) type sockets
- → Built-in surge protection
- → Designed for electrical loads up to 16 A
- → High quality flame-retardant plastic case
- → Built-in self-recovery thermal fuse
- → Monitors correct grounding of the wall socket
- → Monitors correct working of the protection circuit
- → Child protection shutters on each socket
- → 1.5 m, 3 m, 4.5 m length cable

SPG5-U-5

Power strip with surge protected USB charger

- → 5 x German (Schuko) type sockets
- → Designed for electrical loads up to 16 A
- → High quality flame-retardant plastic case
- → Child protection shutters on each socket
- → Two USB ports allow charging any devices with up to 1A power consumption
- → Monitors that the USB charging circuit is working correctly
- → 1.5 m cable

SPG1-U

Single AC socket surge protected USB charger

- → Designed for electrical loads up to 16 A
- → High quality flame-retardant plastic case
- → Child protection shutters
- → Two USB ports allow charging any devices with up to 1A power consumption
- → Monitors that the USB charging circuit is working correctly

SPG-RM

Remote controlled surge protector

- → 5 x German (Schuko) type sockets
- → Built-in surge protection
- → The sockets can be switched on and off by the remote control
- → Operating distance: 10 meters
- → Protects computers, other office equipment and home appliances from harmful power surges and spikes

BATTERIES

GENIE IN CHARGE

EG-BA-001

Ni-MH rechargeable AA-size batteries with integrated USB connector, 1500 mAh

- → No charger needed – just plug it into a USB port of your PC or laptop
- → Help the environment – stop using non-rechargeable alkaline batteries
- → Charge level indication

EG-BA-103

Ni-MH rechargeable AAA batteries, 1000 mAh

- → Rechargeable Ni-MH batteries
- → Help the environment – stop using non-rechargeable alkaline batteries

EG-BA-104

Ni-MH rechargeable AA batteries, 2600 mAh

- → Rechargeable Ni-MH batteries
- → Help the environment – stop using non-rechargeable alkaline batteries

EG-BA-105

Ni-MH rechargeable AAA batteries, 900 mAh

- → Improved rechargeable Ni-MH technology
- → Retains up to 70 % of charge for up to 1 year
- → Help the environment – stop using non-rechargeable alkaline batteries

EG-BA-106

Ni-MH rechargeable AA batteries, 2300 mAh

- → Improved rechargeable Ni-MH technology
- → Retains up to 70 % of charge for up to 1 year
- → Help the environment – stop using non-rechargeable alkaline batteries

BATTERY CHARGERS

GENIE IN CHARGE

EG-BC-001

AA/AAA/9 V battery charger

- → Charges any battery combination: from 1 to 4 pcs at the same time
- → Battery condition detection and polarity control
- → Voltage and temperature monitoring with overheat protection
- → 12 hour auto cut-off safety timer

EG-BC-002

AA/AAA battery smart quick charger with LCD display

- → Smart battery charging and condition control to achieve extra fast charging
- → Charges any battery combination: from 1 to 4 pcs at the same time
- → LCD charging status display
- → "Refresh" function restores the capacity of long-used batteries
- → Voltage and temperature monitoring with overheat protection
- → Supports both 110 V and 220 V AC power, as well as charging from the car DC power source

EG-BC-003

AA/AAA Ni-MH battery ultra fast charger

- → Ultra fast battery charging within only 30–60 minutes
- → Charges any battery combination: from 1 to 4 pcs at the same time
- → Voltage and temperature monitoring with overheat protection
- → Supports both 110 V and 220 V AC power, as well as charging from the car DC power source
- → Cooling fan

EG-BC-004

Alkaline battery charger

- → Recharges most standard alkaline or saline batteries with up to 70 % of the initial capacity
- → Also suitable for Ni-MH or Ni-CD rechargeable batteries
- → Supports battery sizes: AAA/AA/9 V
- → Battery type and condition detection and polarity control
- → Voltage and temperature monitoring with overheat protection

MULTIFUNCTIONAL CHARGERS

GENIE IN CHARGE

EG-MC-001

Multifunctional AC charger, 120 W

- → Universal charger powered from the AC wall outlet
- → Allows charging laptops
- → Provides USB port for charging iPhones, PDAs, mobile phones, MP3 players etc.
- → Short circuit and over-current protection

EG-MC-002

Multifunctional AC and DC charger with voltage display, 90 W

- → Universal charger powered from the AC wall outlet or the car cigarette lighter
- → Allows charging laptops
- → Provides USB port for charging iPhones, PDAs, mobile phones, MP3 players etc.
- → LED display for easy voltage selection
- → Short circuit and over-current protection

EG-MC-003

Multifunctional AC charger with voltage display, 150 W

- → Universal charger powered from the AC wall outlet
- → Allows charging laptops
- → Provides USB port for charging iPhones, PDAs, mobile phones, MP3 players etc.
- → LED display for easy voltage selection
- → Short circuit and over-current protection

PORTABLE CHARGERS

GENIE IN CHARGE

EG-PC-002
Hand charger for mobile phones

- → Clean crank dynamo energy: no need to have extra battery or power source!
- → Rotate the handle for 2 minutes to charge your mobile phone for at least for 1–4 min conversation
- → Rotate the handle for 1 minute to power up the super-bright flashlight torch for at least 30 minutes
- → LEDs instead of bulbs and the water-resistant design guarantee a very long product life

EG-PC-003
Hand charger for mobile phones

- → Clean crank dynamo energy: no need to have extra battery or power source!
- → Rotate the handle for 2 minutes to charge your mobile phone for at least 1–4 min conversation
- → Rotate the handle for 1 minute to power up the super-bright flashlight torch for at least 30 minutes
- → Fully charged built-in battery is enough to power up FM radio for at least 100 minutes
- → Super loud alarm function
- → LEDs instead of bulbs and the water-resistant design guarantee a very long product life

EG-PC-004
Mobile phone AA battery emergency charger

- → Compact travel mobile phone charger
- → Charges your phone on the move
- → Keeps almost discharged phone working for some emergency calls
- → Uses a single AA battery
- → Supports: Nokia, Samsung, Motorola, Sony Ericsson
- → Provides USB-AF output

EG-PC-005
Bicycle hand charger

- → Clean crank dynamo energy: no need to have extra battery or power source!
- → Rotate the handle for 1 minute to power up your bike headlights for 15 minutes
- → Rotate the handle for 3 minutes to charge your mobile phone for up to 8 min conversation
- → LEDs instead of bulbs and the water-resistant design guarantee a very long product life

POWER CONVERTORS

GET MORE OUT OF YOUR CAR

EG-PWC-001

DC-AC 150 W car power inverter

- → AC 220 V power source in your car
- → Suitable for any AC powered electronics with up to 150 W consumption: notebooks, chargers of mobile phones, cameras, vacuum cleaners, electrical tools etc.
- → Overload, short-circuit protection and a built-in cooling fan provide a stable power supply

EG-PWC-002

DC-AC 300 W car power inverter

- → AC 220 V power source in your car
- → Suitable for any AC powered electronics with up to 300 W consumption: notebooks, chargers of mobile phones, cameras, vacuum cleaners, electrical tools etc.
- → Overload, short-circuit protection and a built-in cooling fan provide a stable power supply

EG-PWC-003

DC-AC 500 W car power inverter

- → AC 220 V power source in your car
- → Suitable for any AC powered electronics with up to 500 W consumption: notebooks, chargers of mobile phones, cameras, vacuum cleaners, electrical tools etc.
- → Overload, short-circuit protection and a built-in cooling fan provide a safe long product life DC-AC 500 W car power inverter

EG-PWC-004

DC-AC 800 W car power inverter

- → AC 220 V power source in your car
- → Suitable for any AC powered electronics with up to 800 W consumption: notebooks, lamps, chargers of mobile phones, cameras, vacuum cleaners, electrical tools etc
- → Overload, short-circuit protection and a built-in cooling fan provide a stable power supply

EG-PWC-021

Truck power inverter, 1200 W

- → AC 220 V power source in your truck
- → Suitable for any AC powered electronics with up to 1200 W consumption: any portable electronics, chargers, vacuum cleaners, electrical tools etc
- → Children protected output AC socket
- → Overload, short-circuit, low voltage, overheat protection and a built-in cooling fan provide a stable power supply
- → LED indication and sound alarm

EG-PWC-022

Truck power inverter, 600 W

- → AC 220 V power source in your truck
- → Suitable for any AC powered electronics with up to 600 W consumption: laptops, chargers, vacuum cleaners, electrical tools etc
- → Children protected output AC socket
- → USB output allows charging portable electronics
- → Overload, short-circuit, low voltage, overheat protection and a built-in cooling fan provide a stable power supply
- → LED indication and sound alarm

HDMI SWITCHES

GENIE OF HIGH DEFINITION

DSW-HDMI-31

HDMI interface switch, 3 ports

- → Switches up to 3 HDMI sources to a single monitor, TV set or plasma screen
- → The digital 225 MHz bandwidth amplifier not only increases the transmission distance with about 15 meters, but also improves the signal quality
- → Infrared remote control

DSW-HDMI-32

HDMI interface mini switch, 3 ports

- → Switches up to 3 HDMI sources to a single monitor, TV set or plasma screen
- → The digital 1.65 GHz bandwidth amplifier not only increases the transmission distance with about 10 meters, but also improves the signal quality
- → No power supply required

DSW-HDMI-41

HDMI matrix switch

- → Switches up to 4 HDMI sources between one or two monitors, TV sets or plasma screens
- → The digital amplifier improves the signal quality and increases the transmission distance with about 15 meters
- → Extra CINCH audio output ports
- → Infrared remote control

DSW-HDMI-51

HDMI interface switch, 5 ports

- → Switches up to 5 HDMI sources to a single monitor, TV set or plasma screen
- → The digital 1.65 GHz bandwidth amplifier not only increases the transmission distance with about 15 meters, but also improves the signal quality
- → Infrared remote control

HDMI SPLITTERS

GENIE OF HIGH DEFINITION

DSP-HDMI-21

HDMI interface splitter, 2 ports

- → Sends the digital HDMI signal to 2 monitors, TV sets or plasma screens
- → The digital 4.95 GHz bandwidth amplifier not only increases the transmission distance with about 10 meters but also improves quality of the signal

DSP-HDMI-22

HDMI interface splitter, 2 ports

- → Sends the digital HDMI signal to 2 monitors, TV sets or plasma screens
- → The digital 225 MHz bandwidth amplifier not only increases the transmission distance with about 10 meters but also improves quality of the signal

DSP-HDMI-41

HDMI interface splitter, 4 ports

- → Sends the digital HDMI signal to 4 monitors, TV sets or plasma screens
- → The digital 4.95 GHz bandwidth amplifier not only increases the transmission distance with about 10 meters but also improves quality of the signal

DSP-HDMI-81

HDMI interface splitter, 8 ports

- → Sends the digital HDMI signal to 8 monitors, TV sets or plasma screens
- → The digital 225 MHz bandwidth amplifier not only increases the transmission distance with about 15 meters but also improves quality of the signal

DSP-DVI-21

DVI interface splitter, 2 ports

- → Sends the digital DVI signal to 2 monitors
- → The digital 1.65 GHz bandwidth amplifier not only increases the transmission distance with about 10 meters but also improves quality of the signal

DSP-DVI-41

DVI interface splitter, 4 ports

- → Sends the digital DVI signal to 4 monitors
- → The digital 1.65 GHz bandwidth amplifier not only increases the transmission distance with about 10 meters but also improves quality of the signal

SOLAR CHARGERS

GREEN ENERGY FOR OUR PLANET

EG-SC-001

Solar mobile charger

- → Clean solar energy for charging your portable electronic devices
- → Built-in rechargeable battery with over-charging, over-discharging, over-load, short-circuit protection
- → AC adapter included for fast battery charging
- → Low-battery warning
- → Built-in LED flashlight

EG-SC-002

Solar mobile charger

- → Clean solar energy for charging your iPhone or any other portable electronic devices
- → Built-in rechargeable battery with over-charging, over-discharging, over-load, short-circuit protection
- → Two outputs: universal and USB port
- → Rechargeable via a USB port or an extra AC adapter
- → Battery charge and capacity LED indicators
- → Built-in LED flashlight

BAMBOO PRODUCTS

NATURE
AT YOUR FINGERTIPS

EG-KBM-001

Bamboo keyboard and mouse set

- → Bamboo USB keyboard and mouse set
- → 4 Hotkeys for Internet, Email, Favorites and Calculator
- → Optical 3 buttons mouse with scroll wheel
